# *Online Breaking Of Bread*

Carelinks supports the continuation of W.W.O.B.B. – “The Worldwide Online Breaking of Bread”. This was an initiative by a group of brothers and sisters, many of whom live in different countries; to formulate a way in which members of the Faith can remember the Sacrifice, Death and Resurrection of Jesus Christ.

WWOBB is unique in that brothers and sisters, wherever they are in the world, can regularly break bread online with other brothers and sisters every week. The online breaking of bread is sometimes the only way some brothers and sisters, particularly those in isolation can meet together. Held *every Tuesday*, the online breaking of bread started on February 8<sup>th</sup>, 2005... since then it has *never missed even one week!* Thanks to the dedication of those who attend, and who love the online service, WWOBB is there week after week for many brothers and sisters.

Using free software and a secure invite system attendees simply turn on their computers, plug in their microphones and they are instantly together with other brothers and sisters and ready for the regular Tuesday experience.

So, how is breaking bread online different from a usual service? There's relatively little difference but the experience is more interactive. Attendees can text and speak at the same time. There are prayer requests followed by an opening prayer (this is very popular), then a reading which is followed by an exhortation or reading discussion – after which there are prayers and partaking of the bread and wine. Having completed the central part of the fellowship together there is then a meditation and closing prayer. Simplicity is the secret to the success of the online experience – as is the fact that it's 'live – real time' interaction.

Brothers and sisters who have participated in the Online Breaking of Bread have been in many places while online including: Australia-U.K.-France-U.S.A.-New Zealand-Vietnam-Morocco-Latvia-Turkey-Sweden-Belgium-Spain-Russia-and more.
